

Our students have created book marks which is themed on "Connecting Communities & Cultures". Last whole week they have spent researching & understanding the culture of Pakistan. Their knowledge of understading has reflected on the book marks which they are sending as a digital gift to their friends in Paksitan. The connection is made through sports, flags, costumes and through messages. One student has created a book mark in black & white, would like the person who is getting this book mark should find the appropriate colours & fill it on the book marks. This is a challenge & research for the person who is receiving this book mark.

Happy International School Library Month from all of us.
