School librarian

Primary school Starše, Starše, Slovenia (Osnovna šola Starše, Starše, Slovenija)

In October, the international school library month, we prepared an exhibition of our most beautiful picture books. We prepared the exhibition to honour the centenary of the first Slovenian picture book Martin Krpan, written by Fran Levstik. Our students listened to the story and illustrated it. They solved some puzzles about books and so learned more about Slovenian picture books, their authors and illustrators.

In the bookmark exchange project we connected with Chiu Yang Por Yen Primary School from Hong Kong. The students are going to learn more about Hong Kong and its sights. They are going to make bookmarks and exchange them with students from our partner school.
